**BILL NUMBER****APPROVAL DEADLINE****BRIEF TITLE**

Amendments to the North Haymarket Hotel Phase II, Haymarket Hotel/Tool House, Block 38, and Telesis/Dairy House Redevelopment Agreements

**REASON**

To allow for each of the redevelopment projects to receive the full 15 years of TIF financing under the recent interpretation of the Community Development Law by the State Attorney General

**DETAILS****POSITIONS/RECOMMENDATIONS**

<b>Reason for the Amendments</b>  To allow for the North Haymarket Hotel Phase II, Haymarket Hotel/Tool House, Block 38, and Telesis/Dairy House Redevelopment Projects to receive the full 15 years of TIF financing under the recent interpretation of the Community Development Law by the State Attorney General by establishing effective dates after substantial completion of the project or on predetermined dates.	<b>Sponsor</b>	Urban Development

	<b>Applicants/Proponents</b>	Applicant City of Lincoln  City Department Urban Development  Other
<b>Discussion (Including Relationship to other Council Actions)</b>  The City negotiated the four redevelopment agreements within the last two years. The agreements allow for the use of TIF in funding public improvements/enhancements in their corresponding redevelopment areas.  The State Attorney General, in discussions about amending the State Community Development Law, interpreted the existing Law to say that the "15-year clock" is not required to begin upon project implementation, but may begin upon project completion, if TIF funds are not used for acquisition.  The 15-year clocks have not been started on these agreements. The amendments would make changes needed to allow for the clocks to be started upon substantial completion or on a predetermined "effective date."  The TIF calculation in two of the agreements, Haymarket Hotel and Tool House and Telesis/Dairy House was based upon a clock that was less than 15 years. Therefore, the TIF has been recalculated to allow for the full 15 years.	<b>Opponents</b>	Groups or Individuals  Unknown  Basis of Opposition
